[GoldKingMineRSCInfo.081215.xlsx](#)

Thanks. I changed the name and indicated a version date on the title and in the spreadsheet. Lets try to make sure we change the date version so we don't lose control of the version, at least until we figure out a common place to house it. We are thinking an epaosc.net site needs to be set up for forms and tracking.

One thing is we shouldn't be sharing this broadly with the emergency contact info.

Also, lets start using Gold King Mine as a reference to the response since the response may include other Rivers than just the Animas.
